

Bike Racks

A subtle assessment of a city's future

Travis Wittwer

My research question

To what extent do bike racks
make a difference in a city?

Simply put . . .

Do we need bike racks?

Two most common bike racks

Grill

Staple

Good Design Leads to Use

“When bike commuters perceive ... bike parking to be both ineffective and inefficient it increases the likelihood that they will lock their bike to an unconventional structure such as a parking meter or tree...” (Holly).

Two most common bike racks

Grill

Staple

Railway station parking

Good Placement Leads to Use

“Having the right plan for your bike parking area will ensure it is ...convenient and ... and is inviting to the user” (Saris).

Good Promotion Leads to Use

“Campos said it will be a ‘test area’ ... ‘a block where we have a high need for bike parking.’ Another reason the location was chosen is because it is not currently being used as a motor vehicle parking spot” (Maus).

Simply answered . . .

Do we need bike racks?

Yes

Bike Racks improve the use of a city.

**7:00 - 19:00 h
max. 4 hrs**

This is an example presentation. Notice how:

- The presentation contains visuals and short text--NOT a lot of writing
- The presentation provides a “framework” for the one-page write up
- The presentation is not long--your speaking will be what takes time
- The presentation does not have the analysis. The analysis will be the bulk of your speaking.
